DUCT BANK SPACERS

ADVANCE PRODUCTS & SYSTEMS, LLC

ISO 9001:2015 Certified

DESIGNED FOR OPEN-TRENCH DUCT BANK INSTALLATIONS

APS Duct Bank Spacers provide consistent conduit spacing during concrete placement while simplifying installation and improving field quality. Engineered for open-trench applications, they deliver a durable, reliable solution for a wide range of projects.

WHY USE DUCT BANK SPACERS?

PRECISE CONDUIT ALIGNMENT
Maintains consistent conduit spacing throughout the concrete pour.

IMPROVES PROJECT QUALITY
Produces cleaner, more consistent duct bank installations.

FASTER INSTALLATION
Reduces field layout time and simplifies conduit assembly.

CUSTOM ENGINEERED
Designed and manufactured for any conduit size, layout or configuration.

PREVENTS CONDUIT MOVEMENT
Helps keep conduits securely positioned during concrete placement.

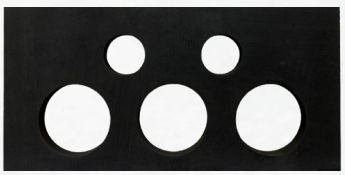

DURABLE HDPE CONSTRUCTION
Non-conductive, corrosion resistant, and built for demanding environments.

BUILT TO YOUR PROJECT SPECS:

- Any conduit size or type
- Any configuration layout
- Custom conduit-to-conduit spacing
- Designed per project requirements
- Engineered-to-order solutions
